SAN JOSE, CALIFORNIA, MONDAY, JANUARY 21, 1957

NO. 69

Derrick Digs Dirt To Spoil Oil Myth

The 35-foot derrick which stands above the 8th street parking lot is engaged in soil testing work, and not an oil well as some suspect.

The J. N. Pitcher Company of San Francisco has drilled a series of three holes, taking soil samples every five feet down to a depth of 60 feet.

These samples are tested to determine the best type of foundation for buildings to be erected there in the future. Results of the tests may indicate no foundation is satisfactory, in which case, piles will be driven—as was necessary in the building of the Science wing.

Six Spartans Jailed in Local Tavern Brawl

Six San Jose State students were involved in a Post Street tavern fight Thursday night and were placed in San Jose's city jail according to police reports. Damage at the tavern was estimated to be \$125.

At 10 p.m., John Thompson, 19, began a fight with the tavern owner and a bartender over the lack of identification. Thompson and his companion, Garry Graham, 21, were thrown out of the tavern, but returned an hour later with five friends.

The seven youths resumed the fight with the tavern owner and customers in the bar. They threw several bottles of liquor into wall mirrors. One customer was hit on the back of the head by a chair. As the youths fled the tavern, arriving San Jose police arrested them.

The five who took part in the fight are SJS students Roger Wieland, 19, Richard Murray, 24, Michael Christy, Wiley Schmidt, 21, and former SJS student Richard Bender, 22.

Polio Signups Begin Today

Registration for Salk vaccine polio vaccinations will be open to 264 persons today and tomorrow in the Student Affairs Office, according to Dr. Thomas J. Gray, health officer.

Dr. Gray disclosed that this limited two-day registration period will be the last chance for students, faculty members, and college employees to sign up for the two polio shots. The shots cost \$1 each and must be paid for when persons register.

One thousand persons already have received two polio vaccinations. According to Dr. Gray, there are 736 persons who haven't received either of their two injections and the limited signup period is to bring this group up to an even 1000 persons.

This second group of 1000, if the registration is successful, will receive their first shots Jan. 22, 24, 28 and 30. Their second shots will come after the break between semesters.

During the initial signup period in November 1955 persons registered. A limited registration period was held before Christmas vacation but only 183 persons were added.

APhiO Members Plan Text Trade

Alpha Phi Omega, service fraternity, now is making plans for next semester's student book exchange, according to Jim Joy, second vice president.

Fred Santana, Sal Noto, and Dick Ittner are in charge of the exchange committee.

Joy invites students to make use of the exchange, to be held in the Student Union, when they want to sell or purchase books.

Army Obtains Info

The student seeking information on Army Regulation 615-369 from Col. John E. Rogers should contact him in his office in B-65. He has obtained the necessary data.

Spartan Daily

SAN JOSE STATE COLLEGE

Signup Requested

Dean Robert Martin has requested that men interested in pushing a social fraternity next semester sign up in the Personnel Office, Room 116, before the end of this semester.

WHAT, NO OIL? — The derrick and crew working on the 8th Street parking lot are not after oil for the lamps of Sparta, despite rumors. The crew is taking soil samples which are tested to determine the type of foundation to be used on the Health and Art buildings. Here two workmen prepare to lower the drill into position. — Photo by Blaisdell

Panhellenic Programs Schedule for Rushees

When the sororities will hold presents. During rushing Panhellenic requires that a "Silent Period" prevail. The group defines the term with "Fraternity women will have no relations with rushees outside of classroom or living groups. This shall mean no informal date dates, double dates or downtown casual dates. Fraternity women shall not be seen accompanying rushees at any time, rush parties excepted."

Rules for rushing will be the same as in the past. Freshmen, sophomore and first semester junior women with 2.0 overall grade point averages and 2.0 averages for this semester are eligible to rush. The only other requirements are that the women must have completed at least 12 units at San Jose State and must not be on probation.

The most important thing for a rushee to remember is to bring her transcript during registration, Miss Lanning emphasized. Failure to do so will mean a needless delay. Pre-registrants also are to bring their transcripts.

A rushees' meeting will be held Saturday, Feb. 16 at which time the girls will receive their name tags and their handbooks. The rushing schedule will be revised and important instructions given.

Rushing will begin Sunday, Feb. 17 with open houses scheduled at all of the 12 chapters. First parties will be held Feb. 18 and 19; second parties, Feb. 20 and 21; third parties on Feb. 23 and 24 and the final functions will be on Monday, Feb. 25.

On Tuesday, Feb. 26, preferences will be turned in. The climax to three and a half weeks of rushing will be Saturday, Mar. 1.

Janet Nielsen To Edit Campus Magazine's Spring Publication

sen or Dr. Gould.

JANET NIELSEN
... New Lyke Editor

forthcoming edition of the magazine and is expected to announce a tentative staff and theme proposals this week.

Nobel Prize Winning Physicist To Address Students, Faculty

Panhellenic New Officers To Be Installed

Installation of new Panhellenic officers will be held this afternoon at 4:30 o'clock in the Sigma Kappa sorority house, 168 S. 10th St. Mary Ann Miller, Kappa Kappa Gamma, will take over the post of president to be vacated by Barbara Lanning, Gamma Phi Beta.

Others who will take office include vice president and rush captain, Carolyn Carlson, Kappa Alpha Theta; secretary-treasurer, Jane Battie, Delta Gamma; assistant rush captain, Pat Means, Delta Gamma; publicity chairman, Kay Rieder, Chi Omega; Jackie Gump, Delta Zeta, social chairman and Dale Falk, Sigma Kappa, Junior Panhellenic.

A change in the Panhellenic constitution will take effect with the installation. Previously the length of offices ran from one fall semester to the next. Effective today, the term of office will be from one spring semester to the next. Offices rotate among the 12 campus sororities.

The job of Panhellenic Council, which meets weekly, is to coordinate the activities of the sororities, to offer assistance to various houses on their problems, to direct sorority rushing and to represent the sororities on various campus committees.

Petitions Required For Final Changes

Any student who wishes to change the date or time of a final examination must talk to Dr. Harrison Heath in Room 19. The student must state his reasons for wishing the final changed.

A petitioner then will receive a petition which is to be signed by the instructor. A new final time should be set and the petition returned to Dr. Heath. If the change is approved, both instructor and student will receive a copy of the approval.

Three Classes Will Not Meet

February graduates must pick up their tickets to the Jan. 31 Dinner-Dance, in Room 16, by Wednesday, Jan. 23, according to Dr. Rocco G. Pisano, Senior Class advisor.

The Senior Class will meet today in Room 39, at 3:30 p.m. Final plans for the Dinner-Dance will be announced.

Escort bids can be purchased in Room 16 for \$3.25. The Dinner-Dance will be held at Mariani's, 2490 El Camino Real in Santa Clara.

Plans for the June graduates' activities will also be discussed at the meeting today. June graduates should pay their graduation fees as soon as possible. A report on the Class letter-paper will be heard. The "Betty Coed, Joe College" dance, scheduled for Friday March 1, after the St. Mary's game, will be discussed.

The Freshman, Sophomore and Junior Classes will not meet today due to "dead week."

Members of the Junior Class will usher for the Fall graduation Feb. 1. Claire Gill is chairman of the ushers committee.

Plans for an after-game dance to be held Feb. 15 were discussed at the Cabinet meeting last Wednesday. The dance will be on a Friday night after the basketball game with Loyola.

Bob Custer, KLOK disc jockey and SJS graduate, will speak to the first Junior Class meeting of the semester on Feb. 18.

'Transistor Physics' Is Topic Of Noted Dr. W. B. Shockley

Dr. William B. Shockley, recent Nobel Prize winner, will address San Jose State students and faculty Tuesday, Feb. 12, at 7:30 p.m. in the Engineering Building Auditorium, E118.

"Transistor Physics," a field in which Dr. Shockley has been in for many years, will be the 46-year-old physicist's topic. He was cited for the 1956 Nobel Prize in physics with Dr. Walter Brattain and Professor John Bardeen, both of the United States, honored for their work in the transistor field.

H. PAUL ECKER
... On Leave

Prof To Leave For Field Post

Paul Ecker, associate professor of business, has been granted a leave of absence for this Spring semester to accept a position as field director for the Northern California Council on Economic Education, according to Dr. Milburn D. Wright, Business Division head.

The Council seeks to improve "economic literacy in the fields of elementary and secondary education." The organization is made up of industrialists, businessmen, union leaders and educational administrators.

Ecker will set up his headquarters at the University of California. He will assume his new duties following a two week orientation study with the Joint Council of Economic Education in New York City. He will help establish pre-service training programs for teachers and cooperating school system programs, as well as economic education workshops.

Last summer Ecker served as chairman of a three-week workshop on economic education conducted at San Jose State College.

Victory Hinted Over Stalinists

LONDON—(UP)—Communist sources here hinted Friday Nikita S. Khrushchev—with the help of Red China—has won the power struggle against the diehard Stalinists in the Kremlin.

The sources indicated Khrushchev's "survival" would be assured shortly by the "retirement" of the remaining tough-line Communists in the Kremlin hierarchy.

Former Foreign Minister V. M. Molotov might be the first to be "pensioned off," the sources predicted. Molotov, one of the old guard Stalinists, is still a first deputy premier.

Khrushchev, the Communist party boss, is held to be "over the hump" now, having emerged as the victor over his arch-Stalinist opponents largely with the support of Communist China.

But he has been forced to compromise heavily on his de-Stalinization and liberalization policy line.

Former Premier Georgi Malenkov, a middle-of-the-road man, is likely to move into the party leadership to maintain the balance, the sources said.

But Khrushchev will lead the Kremlin in effect, with Malenkov at his side.

Dr. Shockley, who resides in Los Altos, was named as a co-recipient of the coveted award for his contribution to the physics world. The physicist invented the junction transistor in 1951, an invention which is revolutionizing the electronic industries. Transistors amplify sounds and are less expensive, less bulky, and less sensitive than the previously used vacuum tubes. Today, most transistors are junction transistors.

Sponsored by the Student Branch of the Institute of Radio Engineers, Dr. Shockley is one of a monthly lecture series, according to student chairman William Fowler. The SJS student branch, with a membership of more than 75, is nationally chartered with the IRE. The membership is composed of scientists and engineers devoted to the field of electronics, Fowler said.

LAB DIRECTOR
Dr. Shockley currently is director of the Shockley Semi-Conductor Laboratory, a division of Beckman Instruments Co., in Mountain View. He is also a part time lecturer at Stanford University.

The bachelor of science degree was won by Dr. Shockley from the California Institute of Technology in 1932 and four years later, the English-born scientist received a Ph.D. from the Military Institute of Technology.

He was employed by the Bell Laboratories at intervals since 1936. He was director of the Transistor Physics Department from 1953 until his resignation.

The decision by the Royal Swedish Academy of Sciences to award the Nobel Prize in physics took two hours, making it one of the Academy's most heated discussions. Originally, the Academy had decided not to award any physics prize for 1956.

Ike's Spending Hits New High

WASHINGTON—(UP)—President Franklin D. Roosevelt was what the Broadway crowd would call a fast man with a buck. That means he was a big spender.

FDR's peacetime spending programs of \$7 or \$8 billion and thereabouts in a single year panicked the financial community.

President Harry S. Truman came along after that and set new spending records. And, now, President Eisenhower is spending at a peacetime rate which makes FDR and HST look like pikers.

On the basis of estimates for the current fiscal year, the Eisenhower administration will have a four-year—spending total of \$267.9 billion. That is for Mr. Eisenhower's first term. He has begun his second with budget estimates for continued big spending. In fact, record peacetime spending.

FDR served three full terms and spent in each of them, respectively, \$29 billion, \$37 billion and \$306 billion. Mr. Roosevelt's \$306 billion tops Mr. Eisenhower's first term expenditure, but FDR's spending was largely for World War II. Mr. Roosevelt was in the red every year during his presidency.

In HST's second term, government cost \$223 billion, plus a considerable accumulation of deficit spending which must be paid sometime by somebody. If Mr. Eisenhower's spending record is shadowed a bit by FDR's World War II spending, the present administration has a clear spending lead over Mr. Truman.

EDITORIAL

Registration: Everyone's Problem

At the end of each semester each student looks forward to a well deserved vacation. However, on return to school he is faced with one of the most disagreeable of all chores, registration.

A huge line greets the student at the Reserve Book Room, where he must pay his registration fees. From there hot, stuffy gymnasiums, supersaturated with more lines, are in store for at least one day. Once inside the gym he is quickly taught that his carefully planned scheduled semester program was more of a dream than reality. Only occasionally is a student able to obtain each class at the hour he prefers.

Certainly, all classes cannot be offered at such ideal times as 9:30, 10:30 and 11:30 a.m. A faculty of 504 is unable to instruct all necessary classes in half a day.

The most unfortunate are those who fall into the group that must register on the second day. These students find themselves in trouble. Freshmen, sophomores and juniors have a great amount of trouble signing into wanted classes. Seniors become panicky when told late the second day of registration that they cannot enter a class which they need for graduation.

Many colleges and universities have other procedures for registration. Several institutions set the registration procedure by class, seniors leading off, followed by juniors and lower classmen. Many of the largest universities have pre-registration and registration by mail. They have worked out a system for filling classes with a minimum of effort on the part of the student or the instructor. The instructor must not be forgotten. He must sit at a table in the hot, stuffy gym for two days.

A system of registration organization such as exists here is fine for a small student body. As the enrollment and buildings at San Jose State grow, so must our thinking in regard to registration.

C. B.

Veterans Under Fire

Dear Thrust and Parry:

Whom do those men think they are kidding? To attend San Jose State is a privilege that is not granted to but a few students out of California's vast population. Yet we have a group of students in this school who deem college as a farce and a place to collect \$110 for chasing nothing but trouble. Yes, we refer to the vets.

Although we are both 18, and fuzzy-cheeked kids to those older men on campus, we take school as a serious matter. Not as a

place to spend time looking at all the girls and goofing around in classes.

We are sure that all non-vets will agree with us when we say that these vets add nothing to class time (when they do go). They only ask silly questions, do a minimum of home work, always try to turn the discussion around to their personal war stories.

Also, styles must be considered. Most of us are attempting to rank San Jose at the top of clothes-conscious schools, yet these vets won't wear Ivy League clothing. They insist on wearing their khaki holdovers from service days. When our mothers come to visit us each week, we are ashamed to let them see these men.

Why don't school officials cut out this silly play and either form a school for vets alone, or bar them from college. After all, they chose the service rather than school when they were graduated from high school, so why let them come back to bother us now?

ASB 134, ASB 6357

Finals Chart — Simple?

Dear Thrust and Parry,

Just what the heck is all this confusion about our fine final exam schedule? It is a very simple procedure to calculate your exam date and time. Merely do as we do and take your slide rule into seclusion for a few hours—then commence to calculate.

The formula: take the square root of the meridian time (Greenwich), divide that by the average rainfall in 12 hours at Alviso during leap year, then multiply that by the logarithm of two slightly used IBM pencils and there you have it. That is, except for night classes.

Now then, if you are just too darn lazy for the above, or one of the weary few who don't carry a slide rule, there is always the course, FINAL EXAM SCHEDULE 103A. This is a survey course familiarizing the student with the general aspects of spring and fall exam scheduling. We didn't have a slide rule when we took the course last spring, and we did not do so well—we received an incomplete in the course because we couldn't figure out what time the final was being given.

"Universities are full of knowledge; the freshmen bring a little in and the seniors take none away, and knowledge accumulates." Louisiana State Daily Reveille.

Exhibit Features Lithograph Photos

The commercial art exhibit now being shown in the Art Department has a story behind it that began several years ago, when Miss Marian Moreland, associate professor of art, came to California to join the San Jose State art staff.

Miss Moreland was delighted, she says to discover a large printing press company on the West Coast, namely, Pacific Press, a book publishing company in Mountain View. Upon inquiry, she found the management would be willing to show her students through the company, and even went out of its way to be cooperative.

Ever since, Miss Moreland's beginning commercial art classes have had a chance to take the "tour" to see what the demands of commercial work really are—in fact, as well as theory.

Robert Kutsch, art director for Pacific Press, furnished materials for the exhibit, which includes a series of pictures showing the process of making color lithographs. There are also many religious pictures, as Pacific Press is the publishing company for Seventh Day Adventists all over the world. The overflow of Pacific Press pictures may be seen in Room 25.

Also included in this exhibit are some Kaiser Aluminum posters, Mercury-News posters from the promotion department and European posters from the International Poster Exhibition. The display will last through January.

New Group Plans 'UFO' Data Probe

WASHINGTON—(UP)—A new scientific organization has asked the public to be on the lookout for "unidentified flying objects" apparently piloted by "intelligent beings" entering the earth's atmosphere.

Rear Adm. Delmer S. Fahrney (Ret.) urged the public to send reports on unidentified flying objects to a new organization known as the National Investigations Committee on Aerial Phenomena. Fahrney is chairman of the group.

Here and There... With Claire

By FRED CLAIRE

How would you like to take your finals in a local coffee shop? It may sound like an impossible idea but that's what law students at Willamette University are free to do.

Under the honor system at Willamette a law student may take his examinations at any place he chooses.

The honor system has been in effect for ten years at the Willamette College of Law.

The College of Law contends that the honor system is not only a fair and efficient method of examining students, it also is a way by which mature students develop a more personal responsibility in law school academic pursuits.

JUST A PERSON

The "Daily Kent Stater" at Kent State University in Ohio published a rather strange cartoon the other day.

It shows a hound dog, or some sort of dog, playing a guitar. The caption reads: "You ain't nothing but a person."

'PRESLEY FOR POLIO'

A new look in March of Dimes campaigns has arrived—station KASH in Oregon is sponsoring a "Presley for Polio" drive.

For each dime sent in the donor receives one vote—12 votes for \$1 on the budget plan—either for or against Elvis Presley.

Votes will be totaled at the end of the drive. If Elvis wins, KASH will play Presley recordings for two and a half hours straight. If he loses, KASH vows not to play a single Elvis Presley record for a month.

CONTEST FOR CHARACTERS

Brigham Young University is conducting a contest to find three students most typical of the characters in the Bibler cartoon series, "Little Man on Campus."

The three main characters in the Bibler cartoons are "Worthal," "Professor Snarf," and "Louise Lush."

The three winners of the campus contest will be honored guests and performers at the annual "Bibler Bounce," a dance sponsored by the Daily Universe, college publication.

BOOTS AGAINST BUCKS

Undoubtedly there were a lot of bets on the major bowl games played on the first day of this year. The Syracuse Orange reports a rather strange one, however, not involving the usual money basis.

It seems that a Syracuse lad met a proud Texas rector on a bus trip to the Cotton Bowl and made the statement that he felt the Syracuse team could take Texas-Christian University in the bowl game.

Quite naturally the fellow from Texas disagreed with this evaluation of the game. In fact, he disagreed to the extent that he was willing to bet his polished pair of high boots (with a map of Texas carved on the sides and the state spelled out over the map) against a pair of dirty white bucks that the Syracuse lad was wearing.

As you probably know, TCU beat Syracuse in the game. Can you imagine a Texan wearing a pair of dirty white bucks?

'AN OFFICER'

A note from Doug Cameron's column in the USC Daily Trojan for the enjoyment of ROTC students.

ROTC student: "I haven't a pencil or paper for the exam."

Sergeant: "What would you think of a soldier who went into battle without a gun?"

ROTC student: "I'd think he was an officer."

'POLITICAL TOLERANCE'

From editorial "footnotes" of the Oregon Daily Emerald.

"Twelve of the University's fair maidens have been selected to usher the inaugural of Gov. Holmes at Salem."

"We can only attribute to political tolerance the fact that the daughter of the Republican national committeeman 'made the team.'"

A Campus-to-Career Case History

"Top training in a top company"

"One of the chief reasons why I joined the telephone company was the excellent training I was offered," says Marvin J. Merrigan, E.E., Iowa State, '53. "In any long-range career you're bound to miss something important if you don't start in with fundamentals."

"I decided that the telephone company's two-year training program was the best possible foundation I could get for a career. I was rotated through every department in the company during my two years. It was strictly on-the-job training, and every day was different and interesting. The experience was terrific. To my training as an electrical engineer there have been

added the skills and know-how of a telephone engineer."

"At the end of my training I was made a plant foreman in Peoria, Ill. My crew is responsible for maintaining telephone service in one-third of the city. It's a job that lets me contribute a lot to the business, and to my career as well."

"I'll say this about the future—you don't get stuck in a niche in the telephone company. Careers lead to executive positions. There's opportunity for advancement everywhere, and for a lot of people, too. Top training, in a top company, really prepares you for advancement."

Marvin Merrigan is with Illinois Bell. There are rewarding career openings in other Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. See your placement officer for more information about career opportunities in the Bell System.

—SO PROF SNARF TOLD HIM TO GET THAT PAPER IN OR HE'D GET NO DIPLOMA

Blind Driver Booked After City Drive

SAN DIEGO—(UP)—Police today stopped a motorist whose car was weaving along an east San Diego street and found the driver was totally blind.

Officers booked the driver, Myron Sautters, 40, on suspicion of drunk driving and driving without

a license. Seated beside Sautters was Arthur Renner, 25, who told officers he was giving Sautters oral instructions for operating the vehicle. He was booked on a charge of conspiring to permit an unlicensed person to drive.

THE DRESS PARADE

What will the American college student wear this spring? Gather round, you rascals, and light a good Philip Morris Cigarette, and puff that rich, natural tobacco, and possess your souls in sweet content, and listen.

As we know, college fashions have always been casual. This spring, however, they have become makeshift.

The object is to look madly improvised, gaily spur-of-the-moment! For example, girls, try a peasant skirt with a dinner jacket. Or melador pants with a bridal veil. Or Bermuda shorts with bronze breastplates. Be rakish! Be impromptu! Be devil-take-the-hindmost!

And, men, you be the same. Try an opera cape with sweat pants. Or a letter-sweater with kilts. Or a strait-jacket with hip boots. Be bold! Be daring! Be a tourist attraction!

But all is not innovation in college fashions this spring. In fact, one of the highlights of the season turns time backward in its flight. I refer to the comeback of the powdered wig.

This charming accoutrement, too long neglected, has already caught on with style-conscious students all over the country. On hundreds of campuses rock-and-roll is giving way to the minuet, and patriotic undergraduates are dumping British tea into the nearest harbor. This, of course, does not sit well with old King George. For that matter, a lot of our own people are steamed up too, and there has even been some talk of revolution. But I hardly think it will come to that. I mean, how can we break with the mother country when we are dependent on her for so many things—linsey-woolsey, minnie balls, taper snuffers, and all like that? She, on the other hand, relies on us for turkeys, Philip Morris, Cinemascope, and other valuable exports. So I say, if Molly Pitcher and those other Bryn Mawr hotheads will calm down, we may yet find an amicable solution for our differences. But let our British cousins mistake this willingness to negotiate for weakness. If fight we must, then fight we will! Paul Revere is saddled up, the rude bridge arches the flood, and the ROTC is ready!

But I digress. We were smoking a Philip Morris Cigarette—O, darlin' cigarette! O, happy smoke! O, firm! O, fresh! O, fragrant! O, long-size! O, regular! O, get some!—and talking of new spring fashions, let us turn now to the season's most striking new feature: pneumatic underdrawers. These inflatable rubber garments make every chair an easy chair. Think how welcome they will be when you sit through a long lecture! They are not, however, without certain dangers. Last week, for example, Rimbaud Sigafoos, a University of Pittsburgh sophomore, fell out of an 18th story window in the Tower of Learning. Thanks to his pneumatic underdrawers, he suffered no injury when he struck the sidewalk, but the poor fellow is still bouncing and it is feared that he will starve to death.

© Max Shulman, 1957

Fashions come, fashions go, but year after year the Philip Morris Company, sponsors of this column, bring you the tastiest, pleasiest cigarette your money can buy—Philip Morris, of course!

Titchenal Back; Plans Varsity Football House

San Jose State football will take a long step in the right direction if present plans of new grid coach Bob Titchenal materialize.

Titchenal, back on campus after an extensive scouting trip in southern California, stated that negotiations are underway to establish a varsity house near the San Jose State campus.

Titchenal said that the house has been purchased and should be ready for the 1957 season.

Stressing the importance of players living together, Titchenal said that Spartan gridders would be provided meals and room in the house. This would conform to the plan now being followed at most of the major colleges on the West Coast.

The personable redhead said that in the past San Jose has lost several promising athletes because they could not provide adequate housing.

The system was in use when Titchenal and former coach Bob Bronzan attended San Jose State in the late thirties. At the time a house on Santa Clara street was used.

"Titch" said that players living in one place took the "together"

feeling onto the field and team spirit was improved.

During the scouting trip, Titchenal talked to promising gridders from a number of Junior Colleges. He remarked that many indicated a desire to attend SJS but they are not sure of any until registration day.

The freshman program will come in for a change also. Titchenal would like to bring the Frosh program up to that of University of Southern California and UCLA.

At both of the Southern schools the freshman program provides a majority of future varsity-gridders prospects. The four year plan gives players more time to familiarize themselves with the system, he said.

In another change from previous policy at San Jose, Titchenal will hold spring grid practice in the middle of April. In the past the vernal drills started the first week in May.

The earlier date will give the players a chance to study for several weeks after the practice season closes.

It will also give a boost to the Centennial Year Spartan Sports Clinic program. The football clinic will be held on May 4 and Titchenal hopes to have an intersquad game scheduled for that day.

ON THE JOB—Bob Titchenal, San Jose State's new varsity football coach, officially took over as head man Friday. Titchenal had been in Southern California contacting prospective gridders after attending the National Collegiate Athletic Assn. meeting in St. Louis. One of the first ideas that Titchenal plans to put into effect is a varsity house for football candidates.

Matmen Meet SFC

Sounding Off

By SAL ORLANDO

When new baseball coach Ed Sobczak sends his charges through their first drills of the season at the end of this month, he will have at his disposal one of the greatest collegiate pro prospects ever developed in Northern California since Jackie Jensen paraded for Cal in 1948—Jerry Clifford.

As a junior last year, Clifford virtually rewrote the SJS record book by setting new standards for batting average, runs, hits, total bases and doubles, while tying the most times hit by the pitcher mark.

If Clifford has any one weakness, it's his throwing arm. But during fall practice, Clifford reported to Sobczak that his wing felt good and there was no recurrence of the bursitis that had bothered him during his soph season.

During the summer, we had the opportunity of watching Clifford play for Leonard Coates Nurseries in the Santa Clara Night League. Watching Clifford hit is like listening to Nat Cole sing—smooth.

Clifford's new SJS batting average record of .400, ironically enough, eclipsed the standard set by one of his summer-time teammates—Bob Wuesthoff's .382.

To tie things in even more, the Leonard Coates team, composed entirely of present and former San Jose State baseball greats, but lost the SCNL title to the Falstaff Brewers, whose centerfielder was named Ed Sobczak.

The first time we saw Clifford in action was in 1953 when he was a shortstop for Sequoia High of Redwood City.

Converted Shortstop

Jerry's prep coach was Bobby Anderson, another former Spartan. Halfway through the season, the Cherokees' regular catcher was injured in an auto accident and Anderson moved Clifford behind the plate. He finished the season as the all-league catcher and compiled a .353 bat mark.

Clifford's second coach was another ex-SJS baseball great, Don Lopes. Under Lopes, Clifford hit .493 to lead what is considered the greatest frosh baseball group in the school's history which had a fantastic .831 slugging percentage.

Danny Hill, athletic news director, probably never will forget Clifford's varsity bow. The young sophomore hit three home runs in three days to pace the Spartans to wins over the University of Oregon. At the end of the campaign, he had a .314 average and tied for the club lead in runs batted in with 17.

Last year, Clifford became the talk of area baseball men. He hit a mere .400, drove in 34 runs, had 16 doubles, 85 total bases, 42 runs and 50 hits. Opposing pitchers weren't afraid of him—much. He was hit by pitched balls three times. He struck out only 12 times in 141 trips to the plate.

Even though he may be on the verge of an even greater season than he experienced last spring, Clifford will be forced to share the center of the stage with several other returnees, among them pitcher Tuck Halsey, who broke the school record for the most wins in one season.

Other pitchers back from last year include Bill Kline, Hal Kolstad and Jim Johnson. This group will be augmented by a pair of highly-rated junior college transfers, Bill Davidson from Hartnell and Larry Peterson from San Jose.

Clinic Should Be Great

While talking to Sobczak about Clifford and prospects for this year's baseball team, we got around to discussing the upcoming baseball clinic that is being held Feb. 2 in conjunction with the centennial celebration of the college.

Sobczak expressed the opinion that the men will be giving demonstrations and speaking during the affair, and will not be there to talk to hear themselves yap, but will be out to relay information to the assembled coaches and general public.

One of the biggest attractions for the clinic is Walter Mills—self-styled greatest pitcher who ever lived. Director of Public Relations for the San Francisco Seals, Mills will act as program moderator.

Bernie de Viverios, one of the most entertaining baseball men we have ever met, will instruct on second base and the pivot play, sliding and base running.

Wrestlers Go After Eighth Win

Seven Undeclared Grapplers on Card For Golden Raiders

The San Jose State wrestling team will attempt to preserve its unblemished record when they meet the San Francisco State mat team at Spartan Gym tonight.

Coach Hugh Mumby's club, riding the crest of a seven match victory skien, will be favored to rout the visitors.

In four previous dual meets San Jose has whitewashed University of California and Santa Clara, held Cal Poly to just three points, and won a close match with the powerful San Francisco Olympic Club.

Coach Mumby will throw seven undefeated grapplers against the visitors.

Joe Isasi, 123, has a 2-0 dual meet mark and took first in the San Jose Invitational meet.

George Sanders will represent the Gold and White in the 130 pound bout. "Mickey Mouse" is undefeated in three matches.

George Uchida, brother of Spartan judo mentor Yosh Uchida, will go in the 137 pound division. He has won twice against no defeats.

Lynn Brooks, winner of four straight in the 147 pound class, will attempt to run the streak to five. Brooks was a winner in the San Jose Invitational.

Connie Rushing and Dale Doig will go in a challenge match this afternoon to decide the 157 pound spot against the Gators. Rushing is 2-0 in dual meet matches.

Ken Spagnola, a mainstay of the team, will represent SJS in the 167 pound bout. He has taken three straight wins.

In the 177 pound match Bob Stangio will take a 2-1 record into the meet. Stangio lost to Lynn Dyche of Cal Poly for the only dual meet match loss by a Spartan this year.

In the 191 pound match Russ Camilleri will try to extend his undefeated run to three straight. Nick Sanger, victor in his only bout, will carry the Golden Raider hopes in the heavyweight bout.

Impressive Locals Score Four TKO's, Two KO's

By DON BECKER

San Jose boxers hammered out an easy 7-2 dual meet win over a collection of Air Force boxers in Spartan Gym Friday night.

The meet proved a good warm up match for Coach Julie Menendez' ringmen. In winning, the Spartans impressed with four TKO's, two KO's and one decision. Collectively the team looked good, but the competition from here on looks to be much tougher.

Ace SJS 165 pounder, Jack Coolidge, was one of the local club's two losers. Coolidge ran into a rugged experienced foe in Coke McClinton from March Air Force Base. McClinton, in 29 previous fights, had scored 26 knock-outs and three decision wins. Losing to McClinton was no disgrace.

San Jose's blond strongman almost won it. After dropping the first round, he staggered McClinton with a right hand midway through the second.

"If Coolidge had more experience he might have finished him off," Menendez noted after the fight. As it was, the airman held on to finish the round and came back in the finale to eek out a close decision. McClinton is one of the few Coolidge opponents to stand toe to toe with the slugging footballer and walk away at the end of the bout.

Using a flicking left and following with good combinations, Bobby Tafuya scored a second round TKO-over Al Guzman of the Air Force in a 119 lb. contest.

Pete Cisneros followed Tafuya with a 30 second KO of a tight nervous looking Jim Geer. Cisneros, 125 lbs., turned the trick with a straight right hand.

A stalking slow starting John Hernandez took things easy in his 132 lb. bout with Al Martin and just did manage to win.

Al Julian, a fine showman and highly skilled boxer, kept the crowd happy in his exhibition bout with flyboy Don Parker. When Julian wasn't making his opponent look ridiculous with his ring trickery, he displayed an array of good combinations.

Airman Tony Scott, a veteran of 50 ring scraps, picked up a bloody nose in the second round of his 147 lb. bout with Welvin "Windmill" Stroud. The "Windmill" was so insistent about wiping the blood off with his gloves, that referee Jim Nutt stopped the bout.

San Jose's other loser for the night was Jack Duignan. The 165 lb. soph put up a good showing.

Ken Galloway Lone Spartan Judo Winner

Ken Galloway was the lone San Jose entrant to take a first place in the Northern California Novice Judo Tournament held Saturday night in Spartan Gym. San Jose finished second to Castle in the final team standings, racking up seven points to nine for the airmen.

Fresno State Tops SC; Faces SJS

Fresno State served warning that it will be an even tougher foe for San Jose State's basketball team when the two teams meet in Fresno tomorrow night after the Bulldogs' disposal of California Basketball Assn. leader Santa Clara, 64-61, Saturday night.

The Bulldogs whipped SJS, 79-75, in overtime here last week and the Spartans will enter the Tuesday game as underdogs.

Center Gary Alcorn paced the Bulldogs with 25 points but it remained for guards Don Davis and Dick Leone to score in the final two minutes of play to give Fresno the win.

however, against an experienced Aaron Peralta. Duignan is in superb condition, but in this instance, it was not enough.

Dori Ruff slugged it out with Lemuel Williams for two rounds and finally came up with a TKO in the third. Ruff, another Spartan in excellent shape, wore down his opponent to wrap up his 156 lb. duel.

Fred Burson jabbed for two rounds, then staggered airman Cliff Wilkerson with a short right in the third. The improved Burson got in as many blows as he could before the referee decided Wilkerson had had enough.

Al Severino, Spartanville's answer to "Two-Ton" Tony Galento, sent the crowd home with a chuckle in the final bout of the night. Mike DeFrancis managed a smile when he first saw the gargantuan Severino, but it quickly faded. Giving away almost 80 lbs., De Francies danced about the ring

for half a minute before Severino landed a left and a right that sent DeFrancis down as much from fright as from the impact of the leather. No one blamed him.

SJS Will Offer 'Program' Class

Representing close cooperation of industry with higher education, San Jose State College will offer a spring semester course in "programming," the preparation and solution of problems on an electronic computer.

The class will be taught by Charles J. Hoppel of the San Jose research laboratory of the International Business Machines Corporation. The corporation is supplying one of its own electronic computers for the use of students enrolled in the class.

The class is scheduled to meet on Tuesday and Fridays from 5:30

to 6:45, beginning Feb. 15. Registration can be completed on Feb. 11 and 12 for regular students and on the evenings of Feb. 12 and 13 for limited students.

The class will be open to any interested persons who have completed differential equation. The course is also offered as part of the curriculum leading to the master of science degree in applied science.

This is the first time such a course has been made available in this area and its offering represents the highest level of cooperation thus far obtained between industry and the college. The demand for persons trained to prepare problems for solution on an electronic computer is large, especially on the West Coast and in the Bay Area in particular.

MEETINGS

Institute of Radio Engineers will meet tomorrow at 12:30 p.m. in E 118. On the agenda are the election of a new vice chairman and the planning of activities for next semester.

Tahoe Is Site Of Ski Outing

Tahoe Biltmore Hotel at the north end of Lake Tahoe will be the scene for Newman Club's Sierra ski trip Feb. 4, 5 and 6. This is the annual semester-break ski trip by Newman Club.

Cost of the trip is \$12 which includes two night's lodging and four meals. This price does not include ski rentals, transportation or noon lunches. Lunches may be purchased on the ski slope. Arrangement for transportation by private cars will be made for those going.

Signups for the trip will close Wednesday, Jan. 23, and a deposit of \$1 is required. Forty people already have signed up for the event.

Bishop Block To Give Talk

The Rt. Rev. Karl M. Block, bishop of the Episcopal Diocese of California, will speak on "The Function of the Church in Contemporary Society" at the First Methodist Church on Sunday, Jan. 27, at 7:30 p.m.

His speech is part of the Sunday Evening Community Forum conducted by the Church.

Bishop Block is the author of two books, "Our Common Life," and "The Sword of St. Michael," and has been the CBE medal, Commander of the British Empire, for his work in the Episcopal Church.

The public is invited free of charge.

Student Teachers To Meet Tuesday

All kindergarten-primary and general elementary students who plan to student teach in the spring semester should attend a meeting tomorrow at 3:30 p.m. in Room 55, according to Mrs. Ann Fabrizio, Education Department secretary.

The camping program for student teachers will be the main topic of discussion, Mrs. Fabrizio said.

Friday's Concert Cancelled by ISO

The International Concert, sponsored by ISO, which was to have been held Friday, was cancelled, because the Russians and Germans groups could not participate at this time.

ISO hopes to hold the event next semester, possibly in connection with International Day, April 26.

The concert will be a musical program put on by groups of foreign-born adults from this and neighboring communities.

Final examinations at San Jose State for the fall semester will begin Jan. 24 and continue through Jan. 30. All classes will be given a final unless exempted by the examinations committee.

Classes beginning at 4:30 p.m. or later will take their final at the regular meeting time during finals week.

To find the time of a final in a certain class, first check the half-day on which the final will occur. Then consult the chart to find the hour and length of the exam. Each professor will announce the date of the final and the approximate length.

Peruvian Job Needs Mature Teacher-Team

An opportunity for a husband-wife teaching team or a mature woman teacher-director to teach in Peru is being offered by the Utah Construction Co., according to the Placement Service.

In a recent letter from Cato B. Andrews of the company's personnel department, it was explained that the Utah Company is seeking a qualified couple or woman between the ages of 35 and 50 for employment as teachers in an elementary school near San Juan, Peru.

The director-teacher or couple will be expected to direct the school program and set up an effective system for the testing of student achievement and progress levels.

The school enrollment presently consists of 19 pupils who are the children of company employees. The students are of U.S., British, Peruvian and Bolivian nationalities. The teacher will be assisted by one or more bi-lingual Peruvian teachers.

For the woman director-teacher, the salary would be \$350-400 per month, which would be paid throughout the year. The teaching contracts, written for three-year terms, provide for two month annual vacations.

Modern housing is provided at no cost to the instructor, according to Andrews. The town has a population of 3500 and has a dry and temperate climate with no rainfall and little fog.

Dr. Farr To Speak On Living In Chapel Service Tomorrow

"Let's Learn To Live" will be the topic of tomorrow's chapel service at 1:30 p.m. in Memorial Chapel.

Dr. Joyce W. Farr, First Methodist Church, will be speaker for the service. Dr. Farr believes that "there is too much emphasis upon making a living, and too little thought given to what really makes for a good life."

The Rev. Richard Ingraham, university pastor of First Methodist Church, will conduct the worship service along the same theme.

Students and faculty members are invited to attend the last

chapel service of the semester, said Mary Friedman, chapel committee chairman.

Ad Fraternity Elects Officers

Dawn Tognoli has been elected president of Gamma Alpha Chi, national women's advertising fraternity, it was announced today.

Other new officers are Frances Stuart, vice president; Eleanor Knudsen, treasurer; Pat Kappen, pledge trainer; Shirley Bugge, historian; and Jan Poindexter, publicity.

Student Thespians Urged To Try Out For 'Nobel Prize,' Final Play of Year

Tryouts for "Nobel Prize," by Hjalmer Bergman, will be held in Studio Theater Feb. 13 and 14 at 4:30 p.m., according to Miss Elizabeth Loeffler, who will direct the play. All upper division students and second-semester sophomores are encouraged to try out.

The play is a modern comedy concerning the consternation and complications in a family when it discovers that the father unexpectedly receives the Nobel Prize.

"Nobel Prize" will be the last play of the regular 1956-57 drama season and will be staged in arena style in Studio Theater, beginning May 24.

BE THE
Girl Most Likely to Succeed

PLAN NOW FOR AN IMPORTANT EXECUTIVE CAREER AS AN OFFICER IN THE WOMEN'S ARMY CORPS

You can be the "Girl Most Likely to Succeed"—by applying now for an officer's commission in the Women's Army Corps. You'll step right from college into an important career on the executive side of the desk—the side that means good pay, interesting work, stimulating experiences.

As a commissioned officer in the U. S. Army, excellent pay, rank and prestige will be yours. You'll have a position of vital responsibility—working side by side with male officers in important staff and administrative assignments.

Here are some of the outstanding fields in which you may train:

- Personnel and Administration
- Intelligence
- Comptroller
- Public Information
- Information and Education
- Legal and Legislative
- Civil Affairs and Military Government

And that's not all! You'll enjoy many personal benefits—the chance for exciting foreign travel, a 30-day paid vacation every year, an officer's busy social life. If you're a college senior, be the "Girl Most Likely to Succeed."

For information about your executive career, fill in and mail this coupon today.

THE ADJUTANT GENERAL, Department of the Army
Washington 25, D. C. AGM AOSM-1

Please send me further information on my career as an officer in the Women's Army Corps.
